

OUR COFFEE

We serve two shots of Synergy House Blend coffee made by The Winchester Coffee Roasters, a blend that's been the foundation of their business. A coffee blend from four different origins: Brazil, Colombia, Guatemala & Sumatra.

But it's not just about the coffee...

We've paired the Synergy blend with Nunton Farm's free-range milk. This delicious pasteurised milk is made by a happy herd of Friesian and Jersey cows who graze on Salisbury's famous water meadows. The milk is unhomogenised so you'll get all the goodness of the milk in your coffee...and it usually arrives to Headlands Farm Coffee Shop within an hour of being bottled.

We sell both the coffee (ground or beans) and milk (in returnable glass bottles) from the Coffee Shop so you can enjoy at home.

Fresh, Sustainable and Local
